

Table 4 - Eligibility Requirements at WRAP and T-Plant

Consideration	WRAP	T-Plant	Information Source
SNM	Not Acceptable	Not Acceptable	DMS
CPS	All CPS Types	Only A & D Accepted	DMS
DE-Ci	82.5 – container 164 – Glove box	≤ 15	SWITS/DMS
FGE	No limit	No limit	Embedded in CPS Type
PE-Ci	No limit	< 25	SWITS/DMS
Item Weight	No item	< 40 lbs per item	LDA reviews
Waste Streams	No restrictions	No RLM308D or CFFD (KM)	TRU EDMT
Length of Item	Item must fit within one-trip (< 31 inches)	Length/width must fit within transition chute	LDA Review
Upside down 55-gallon drum inside 85-gallon drum	Cannot accept	Acceptable	NDE data sheets/ LDA reviews
Corroded 55-drum	Some – entry system for corroded 55-gallon drums to be developed	Most – If 55-gallon is completely corroded and waste is within 85-gallon, then unacceptable	LDA reviews & retrieval paperwork
Propane cylinders	Acceptable	Possible - but look at on case-by-case basis	NDE data sheets & LDA reviews
Liquids	Acceptable	< 15 L	NDE data sheets
One-Trip 55-gallon drums	Acceptable	Not Acceptable	NDE data sheets, SWITS/DMS
Sharp Items	Acceptable	Acceptable (will be reviewed on a case-by-case basis)	LDA reviews
Foamed Drums	Acceptable	Not Acceptable	LDA reviews
Chemical Compatibility	No issues identified	Some chemicals incompatible with glovebag	SWITS 310 Report reviews
